Haircut:	\$39	\$29
You'll be looking great and good to go! Includes a complete consultation to address the needs and condition of your hair and scalp, followed by a shampoo, condition, and scalp massage to wash and protect your hair and scalp. Next is an individualized technical cut using the best tools and techniques to do the job. We finish you off with recommending and applying an appropriate styling tool (think gel, pomade, paste) and include a styling lesson.		
Men's Touch of Summer:	\$40	\$30
Your hair naturally lightens when it's in the sun. A free-hand application technique gives you summer-like dimension in short hair without looking mechanical.		
Men's Gray Blending:	\$30	
Is your maturity showing sooner than you'd like? We can take care of that! A fast color application and processing on short hair blends those years away! Includes a shampoo, condition, and scalp massage.		
Detailing:	\$6	\$5
All haircuts self-destruct over time. This ten minute service is designed to extend the wear and minimize the tear. We pay close attention to the details around the sideburns and the back hairline, buying you a few more weeks until your next service. Done dry, you'll be in and out. This service is offered at no charge between regularly scheduled appointments.
